

Form Title goes here and in the Browser Title Bar

URL will be based on the Form Title. Just like the way, wordpress creates friendly titles based on the post title

A User friendly URL. No Gibberish - No .php/.aspx extensions

The Customer should be able to upload his own Custom Logo. If Customer does NOT have logo, then don't show Magna Forms Logo. We do NOT want to be intrusive

NO Menu

Text Boxes can have a Pre-set text in 'Grey' that will be over-ridden if you start putting some text in it

Fields can be divided into Sections with a Caption - 'Personal Details' etc

Minimalistic Footer

Company A - Employment Registration Form

http://www.magnaforms.com/employment-registration-form

**Company A - Employment Registration Form**
